

# Building the capacity of education leaders with Bastow.

## The brief.

Education Changemakers was approached by the Bastow Institute to run a portfolio of programs across several years to support emerging and middle level education leaders.

182

schools have taken part in EC run Bastow programs since 2014.

100%

of alumni rated their program as 'good' or 'great'.

## What we did.

We drew on our existing programs to tailor a customised approach for the Bastow Institute. This has seen us run eight different intakes of emerging, middle-level, senior leader and intercultural programs since 2014 across the state of Victoria, both in rural and city settings. The Bastow Institute is a premier leadership training organisation supported by the Victorian government, and we continue to innovate new programs and professional development opportunities with them.
